

Nylotube[®]

Nylon-11 and Nylon-12 Tubing

ESOP Employee Owned
for Your Benefit

Fluid Transfer Specialists[®]

Nylon-11 & Nylon-12 Tubing

- Very low moisture absorption: 1.4% maximum (at 73°F)
- Will not become brittle or swell because of water
- Excellent resistance to flexural fatigue, tube vibration, and movement
- Lightweight with excellent bend radii and pressure ratings
- Resists crushing, abrasion, and cracking
- Standard availability in metric sizes and colors
- Tightest tolerances available

Notes

NYLOTUBE is resistant to solvents, alkalis, oils, greases, petroleum products, fungi, and molds. It has generally good resistance to dilute mineral and organic acids, but in-plant tests are suggested.

Semi-Rigid grade, black color, is heat and light stabilized.

Nylon brittleness is usually caused by cycles of water absorption and depletion. NYLOTUBE is not dependent on moisture for flexibility, so life expectancy is greatly increased with brittleness eliminated.

Contact us for information on custom coiled nylon.

Tolerances

OD (INCH)	TOLERANCE (INCH)
1/8 - 5/32	+0.001, -0.003
3/16 - 5/8	+0.001, -0.004
3/4	+0.001, -0.005
1	+0.001, -0.006

OD (MM)	TOLERANCE (MM)
4	+0.03, -0.08
6 - 12	+0.03, -0.10

Recommended Fittings

- Newloc® push-to-connect fittings
