Butyl Hose

Beer & Wine Beverage Grade Butyl
Hose for Suction & Discharge2

Nitrile Hose

Food & Dairy Beverage Grade Nitrile
Hose for Suction & Discharge3

NewAge Industries offers tubing and hose transfer solutions for the food and beverage industry. Both our Butyl and Nitrile Hoses contain pure, smooth liners to allow unrestricted flow, minimizing concerns associated with entrapment and blockage. Both meet FDA standards and contain microbe-resistant liners that will not impart taste or odor.

Our Butyl Hose, constructed with a high purity white chlorobutyl rubber liner, is ideal for non-oily beverage and food applications including potable water, beer, wine and juices.

Our Nitrile Hose, made with a high purity white nitrile rubber liner, is suitable for a wide variety of food and beverage applications including potable water, non-alcoholic beverages, juices, oily/fatty or dry bulk foods, milk, and dairy products. Both hoses are rated for full vacuum (29.9 in./Hg) and contain a steel wire helix for reinforcement, making them ideal for suction and discharge applications.

Crimping services are also available, enabling us to provide complete hose assemblies. ■

Applications

■ Beer Brewing ■ Beverage Delivery ■ Beverage Transfer Lines ■
Dairy Processing ■ Draft Lines ■ Juices ■ Milk Production
■ Non-alcoholic Beverages ■ Oily/Fatty Dry Bulk Foods ■ Potable
Water ■ Suction & Discharge ■ More

Beer & Wine Beverage Grade Butyl Hose for Suction & Discharge Applications

- Ultra smooth, white, chlorobutyl rubber liner offers high purity and allows unrestricted flow; minimizing entrapment and blockage concerns
- Microbe-resistant liner is built on stainless steel mandrels for cleanliness and will not impart taste or odor
- Meets FDA and Canadian Food Inspection Agency (file: N267) standards
- Butyl compound used is free of animal-derived ingredients
- Multi-layered and reinforced with a helix wire, making it ideal for suction and discharge applications
- Rated for full vacuum (29.9 in./Hg.)
- Works best in non-oily beverage and food applications including potable water, beer, wine, and juices
- Available in bulk quantities or as complete hose assemblies
- Offered with standard BPE Stainless Steel Tri-Clamp® fittings, collars and clamps
- Clean In Place to 248°F (120°C). Not intended for continuous steam service.

Notes

Construction

Liner: White FDA Butyl rubber
 Reinforcement: Multiple plies of polyester with helix wire
 Wire: Steel helix
 Outer Cover: Green EPDM rubber

Fitting Styles Available

- Tri-Clamp®
- Collars
- Hinge Clamps

All recommended fittings, collars, hinge clamps and accessories are made from 300 series stainless steel.

Physical Properties**

Minimum Operating Temp., °F	-40
Maximum Operating Temp., °F	240
Working Pressure at 70 °F (21.1°C)	150 psi
Max Burst Pressure at 70 °F (21.1°C)	600 psi

**Values listed are typical for the material used in manufacture, except where noted, and are meant only as a guide to aid in design. Field testing should be performed to find the actual values for your application.

PART NO.	ID (IN.)	OD (IN.)	VACUUM RATING (IN./Hg.)	BEND RADIUS (IN.)	LBS. PER FT.

Food & Dairy Beverage Grade Nitrile Hose for Suction & Discharge Applications

- Ultra smooth, white, nitrile rubber inner surface offers high purity and allows unrestricted flow, minimizing entrapment and blockage concerns
- Microbe-resistant liner is built on stainless steel mandrels for cleanliness and will not impart taste or odor.
- Meets FDA and Canadian Food Inspection Agency (file: N267) standards
- Nitrile compound used is free of animal-derived ingredients
- More flexible than other rubber food and beverage hoses of similar construction
- Abrasion-resistant nitrile compound cover is lightweight yet durable
- Multi-layered and reinforced with a wire helix, making it ideal for suction applications or discharge applications such as tank cleaning
- Rated for full vacuum (29.9 in./Hg.)
- Odorless and tasteless, making it suitable for a wide variety of food and beverage applications including potable water, non-alcoholic beverages, juices, oily/fatty or dry bulk foods, milk, and dairy products
- Available in bulk quantities or as complete hose assemblies
- Offered in a range of popular sizes
- Clean In Place to 248°F (120°C). Not intended for continuous steam service.
- Offered with standard BPE Stainless Steel Tri-Clamps®, male and female cams, fittings, collars and clamps
